On 3rd-and-4-6, FAU was 4/4 pass from TRIPS. Strong dropback alert.

TRIPS OPEN

19 / 29 PASS (65.5%)

Useful as a pass lean, but its strongest value comes when D&D; and play family are added.

SECTION 02 MOTION + FORMATION TELLS

Motion alone can be noisy. These are the combinations where the motion materially sharpens run/pass or play-family expectations.

Formation	Motion	Snap	Run	Pass	Run %	Pass %	Family
TREY Z HIP	Z REV	3	3	0	100.0%	0.0%	ZONE
DUO Z HIP	Z REV	2	2	0	100.0%	0.0%	ZONE

TRIPS OPEN	H MTR	2	0	2	0.0%	100.0%	SCREEN

Z REV**5 / 6 RUN** (83.3%)

All five runs were Zone. The cleanest motion-level tendency in the sample.

Z IN**4 / 5 PASS** (80.0%)

Pass lean across the sample. Useful alert, but not as strong as the Z REV run key.

DOUBLES + BUZZ**3 / 3 PASS** (100%)

Two calls were 91-family and one was Corner Post. Small sample.

DUO Y OFF + H ORB**2 / 2 RUN** (100%)

Both were Gap/Counter-family. Small-sample concept alert.

No standalone key yet: Y MO, Y MTR and H MTR are balanced. X IN changes by formation: DUO + X IN was 2/2 run, while DUO Y OFF + X IN was 2/2 pass.
